---------------	------------------------------------	------------------------------------	------------------------------------	-----------------------------

**NB:**

- Product design requires the support of a vanity unit below the basin.
- All basins are supplied as standard without tap hole unless otherwise specified.
- Measurements: max 1605 x 455 mm.
- The basins have a tolerance of +1/-1 mm; we recommend that all basins are ordered 5 mm wider than the furniture setting (e.g. 1605 mm total width to suit 2x800 mm units).
- Centre of the basin bowl must be aligned with the centre of the vanity unit.
- For wall-to-wall solutions we recommend 3 mm space on both sides between worktop and wall. Take care to note the diagonal measurement between the walls.
- Bespoke products cannot be cancelled or returned after the signed order form is received.
- Please be aware that the warranty no longer applies if modifications to the construction and/or the design are carried out.
